

We Want Your Picture

Did you know that MyChart has a place to capture your picture?

The pandemic has left us wearing masks more than any of us would like. While we can't take the masks off for patient care yet, we would like to be able to see your face. This helps our care team identify you and remember who you are. We have recently added photos for our providers for the same reasons.

To capture your photo in MyChart, go to the **Personalize** section of the Menu. You can take a new "selfie" or upload an existing photo.

General guidelines for identification photos:

- Do not use pictures with hats, sunglasses, or masks.
- Only include head/face shots.

Our team will review the photos once submitted. If any are deemed inappropriate, they will not be posted.

Thank you for helping us get to know you better!
